

EPP - SONG CONGRESS 2010

I've been a pig farmer
(Melody: "The Wild Rover")

I've been a pig farmer for many a year
and spent all my money on welfare my dear
But now I'm in Holland for congress and wine
It's late every night and the drinks tasting fine

And it's no, nay never
no nay never no more
will I be a pig farmer
low profits no more

Attending the congress is done every year
Lectures and workshops to make it all clear
A lot of discussion with EPP friends
To get information that knowledge extends

And it's no, nay never
no nay never no more
will I be a pig farmer
low profits no more

We're having excursions and visit some farms
We all like to hold a young pig in our arms
Our ladies have chosen to go their own way
They're chirping as much as the young birds in May

And it's no, nay never
no nay never no more
will I be a pig farmer
low profits no more

We know what's important for us being here
Pig farmers of Europe united each year
We're drinking a beer and we dance on the floor
And than we go home after singing once more

And it's no, nay never
no nay never no more
will I be a pig farmer
low profits no more
